Maps is one of the apps that comes pre-installed on Windows 10. It lets you search for places, get directions, contact numbers, business information and reviews. You also get navigation, aerial imagery and 360-degree street level views. If you want to search for locations and get instructions even if you're not connected to the Internet, you should download maps for offline use. We'll tell you how. Fall or click Tap System or click Offline Maps, or click Download Maps on select areas to download. Alternatively, you can do this from the Maps app. It takes an additional step. Tap Maps or tap Settings (gear icon) or tap Download or click Update Maps or click download maps on select areas to download. To continue downloading, if it's running, you need to turn off the Maps app. Bust! If a map update becomes available, when your device is plugged in and connected to Wi-Fi, it will be downloaded automatically. You can disable it by closing the option, automatically updating the maps. If you think this guide is helpful, we have many more such posts in our Windows 10 Help, Tips and Tricks page. For the holiday weekend, we wanted to provide you with some more ways to have fun.
